BIG TRACT OF COAL LAND CHANGES HANDS

Over 900 Acres Back of Monongahela included in Purchase

DEVELOPMENT TO BEGIN

Mines to be Opened at Once it is Stated—Is Last Block of Undeveloped Land

A coal purchase of unusual interest in Pittsburgh has been consummated by which a little more than 900 acres of Pittsburgh vein coal passed into new hands, with the immediate prospect of development on a large scale. The amount involved is said to be \$800 an acre, or a total of \$720,000. With improvements the deal will reach \$1,000,000.

The coal consists of two blocks. One piece was held by Walker & Taylor as an investment, back of Monongahela City along the Pigeon creek branch of the Pennsylvania railroad which runs to Ellsworth and contains 650 acres. The other is a lot of 256 acres adjoining it which was owned by the Ellsworth Collieries company and which was obtained by a trade for acreage more advantageous to the Ellsworth company.

George C. Theiss, former president of the Monongahela River Consolidated Coal & Coke company and Rufus Crawford, identified with many coal and coke operations in this district are the purchasers, but are said to have other strong associates. They intend to begin operating it soon. A company will be formed. It is understood Pittsburgh capital is back of the enterprise.

The property is between the holdings of the Steel Corporation, being that portion formerly owned by the Mingo Coal company, while the extensive acreage of the Pittsburgh-Westmoreland Coal company is on the other. The openings for the mines will be almost opposite the Hazel Kirk mine of the Pittsburgh-Westmoreland company, with shipping facilities on the Pennsylvania railroad. The coal is inside the thin vein district, but it is regarded as equal to the best coking coal in the region and it is understood that a portion of the output will be coked.

Interesting details of the transaction show that the property is the last block of undeveloped coal land in that region, which has been under active development. It was supposed that the Steel Corporation interests had an option on the property and that it was out of the market. Adjoining the operations are most important mines in the Pittsburgh field. The Ellsworth Collieries, which are the coking operations of the Lackawanna Steel company, and the Pittsburgh-Westmoreland coal operators are neighbors and the big acreage of the Steel Corporation is being held as reserve for coking, though surveys for improvements on that tract have been made.

The acreage is in Washington county, center of interest generally because of the developments of the Pittsburgh Coal company in extending railroad facilities into its holdings, and the development of many coke plants on the upper end of the field.

Will Take up Paving Matter

Council to Hold Special Meeting Next Tuesday to Discuss McKean Ave. Work

Council has arranged to hold a meeting on next Tuesday evening at which time it is expected to take up matters relative to the paving of McKean avenue south from First street to the borough line at Maple creek. This stretch of highway is one which the state will pave 16 feet. Petitions have been circulated among the property holders along the street and it is understood that they will be presented Tuesday night.

TO WORK TOGETHER ON CASES

District Attorneys of Westmoreland and Washington Confer

TALK OF RIVER SECTION

District Attorney R. G. Miller was in Pittsburgh this week where he was in conference with W. T. Dom, district attorney of Westmoreland county. The two prosecuting attorneys talked over the handling of cases that develop along the river section where Washington and Westmoreland counties join and the desirability of co-operation in dealing with certain crimes that affect the two counties.

The matter of the shipment of liquors from Westmoreland county into this county and from this county into Westmoreland county was also discussed. District Attorney Dom had complained of such shipments from this county and District Attorney Miller had several complaints of alleged violations on the part of Westmoreland liquor dealers.

The matter of bawdy houses was also gone into. Offenders in Westmoreland county, across the river from this county, when compelled to get out of Westmoreland, simply slip across the river, into this county. Other matters of interest to the office of the district attorney were discussed by the commonwealth's representatives.

Washington Avenue Soldiers Have Army Blue Dress Togs on Way—Are Making Arrangements for Camping Trip

New dress uniforms have been ordered by the Washington Avenue Boys' Brigade, and they are expected to arrive by the first of August from Columbus, Ohio. Fifty-six uniforms have been ordered, all but four being for privates. Meantime a camping trip to Conneaut Lake is being arranged by the brigade, which next Saturday will hold a supper at the church for the purpose of raising funds both for the camping trip and for the brigade general fund.

The new uniforms will be army blue with white webbing belts. Special uniforms are to be secured for the captain and three lieutenants.

Charles Wallgren is the captain of the brigade; Austin Stahlman is the first lieutenant; John Clutter second lieutenant and Frank Michener, third lieutenant. All the members of the brigade are members of the Sunday school.

WORKING ON MONONGAHELA RIGHT OF WAY

Are Progressing Well on Street Railways Line Leading From Down River Points

Ninety per cent of the right of way between Monongahela and Van Vorhis has been secured it is stated by the Monongahela Ellsworth and Washington street car company, and work of grading is progressing near the farm of Clinton Van Voorhis. It is stated by officials of the company that with good fortune cars will be in operation between Monongahela and Hazelkirk by the first of October.

RAILROADS READY FOR BIG STRIKE

Representatives of Employees Tell Them to Prepare to Quit Work

A. B. Garretson and W. G. Lee, representing the eighty-two thousand disgruntled conductors and trainmen on the eastern railroads, notified the chairmen of all the unions involved to hold themselves in readiness for an immediate strike order. The communication characterized the arbitration scheme proposed by the railroad managers as nothing short of a "plan to reduce the pay of every man in the service instead of giving the twenty per cent increase which is demanded."

While the notice which the leaders called an ultimatum was being drawn Seth Low, president of the national Civic Federation, was addressing the conference committee of the railroads. It is shown that Mr. Low's statement amounted to a charge that the railroad officials were guilty of a breach of faith with their employees by not agreeing to arbitrate the wage question before other grievances are taken up.

WILL HOLD POSTOFFICE TEST HERE

Coal Center Fourth Class Office to be Filled by Government

The United States Civil Service commission announces that on Saturday, August 23 an examination will be held at Charleroi as a result of which it is expected to make certification to fill a contemplated vacancy in the position of fourth class postmaster at Coal Center, Pa., and other vacancies as they may occur at that office. Unless it shall be decided in the interests of the service to fill the vacancy by reinstatement. The compensation of the postmaster at this office was \$999 for the last fiscal year.

Application forms and full information concerning the requirements of the examination are to be secured from the postmaster at Coal Center and the local secretary at Charleroi or from the U. S. Civil Service commission, Washington, D. C.

FRONT OF STORE TO BE CHANGED CONTRACT IS LET

S. K. Scott, the local contractor has been awarded the contract for installing a new glass front in the Kinder building on Fallowfield avenue and will start work at once. The location is the one that will be used by I. V. Kinder for his flower store. He will occupy it shortly after the first of September. The front will be so arranged as to give a good display for flowers. It will be oval shaped extending between two doors that form entrances to the building.

ODD FELLOWS TO HOLD OUTING AT KENNYWOOD PARK

Arrangements are being made by the Odd Fellows' Picnic Association of the Monongahela valley for the annual outing, which will be held this year at Kennywood park on August 29. It is planned to have a train run directly from Brownsville to the park if arrangements can be perfected.

They ate deep holes in the floor and then gave up the effort. The second annual groundhog supper will be given by the Eldora Amusement company at Eldora park to the newspaper men of the valley.

GARBAGE WAGON IS IN WRONG

Makes Its Presence Too Apparent and People Complain

CONTAINS NO COVER

Complaints similar to those heard every summer from suffering citizens are being aired concerning the awful stench that emanates from the uncovered garbage wagon that frequently is driven through the streets and alleys. Almost any Saturday morning the path of the garbage wagon could be traced with remarkable accuracy by a blind man, because of the odoriferous smells that follow in its wake. It is stated that an effort was made at one time to have the garbage wagon supplied with a cover to keep in as much of the stench as possible. Apparently efforts were in vain for the only cover that is to be seen now is the broad blue sky, and the wagon with its contents smells to heaven.

PLAYING LAST GAME OF A SERIES TODAY

This afternoon on the local baseball ground the Monongahela and the Charleroi baseball teams are playing the last of a series of games for the championship of the upper Monongahela valley. Incidentally it is expected that the winner of this afternoon's struggle will have the first grasp on the championship of Washington county.

New Style of Blank Necessary by New Primary Law

NONE RECEIVED YET

Commissioners Expect Supply by Tuesday—Misunderstanding in Signatures

Petitions like those formerly used by aspirants for municipal or county offices cannot be used under the new primary law. This information was imparted this morning over the phone by Harry R. Campbell, clerk to the county commissioners, in answer to a query from Charleroi. Blanks will arrive probably Tuesday from the state department and will be available for prospective candidates.

Former petitions setting forth the intentions of the candidate for office were put entirely out of use when Gov. J. K. Tener signed the new primary bill a week or so ago. Now the prospective candidates who have carefully inquired as to the matter of petitions are chafing under necessary delays. The county commissioners have not yet received any of the new kind of blanks.

If any candidate for office has started out to secure signatures using an old blank he will have to start out all over again, after he receives his new blank.

There appears to be some misunderstanding of the new primary law in regard to the signing of petitions. According to the interpretation that has been given one voter is permitted to sign one petition for one office. For instance if a burgess candidate asks a voter to sign his petition, the voter may do so, but that ends his signing of petitions for the office of burgess. However his signing of that candidate's petition will not have anything to do with the matter of signing another petition for another office. In five places in council are to be filled, he can sign a petition of a candidate for each place.

The way the primary law reads it seems essential that each signer of a petition place the date of his signature after his name. Candidates for municipal offices must have 10 signers to their petitions, excepting for elections candidates must have five inspectors of election. Inspector of names to their petitions. County office seekers must have 100 names to their petitions.

TRAVERSED PARTS OF THREE STATES IN AN AUTO TRIP

James Dawson of Charleroi and his brother J. W. Dawson of Uniontown with their families have just returned from an automobile tour of 12 days through Ohio, New York and Pennsylvania. They traveled through East Liverpool, Ohio, to Cleveland, from Cleveland they went to Erie, from Erie to Buffalo, N. Y., thence to Niagara and back to Lake Chautauqua. They returned home by way of Butler. In spite of the quickness of the trip no ill fortune was suffered.

CARE, NOT SPEED, THE TEST.

In the prosperous West the auto-
mobile has come into general use
among the farmers and as a result,
says the Chicago Tribune legislation
tends to be more favorable to its rea-
sonable use. Disciplining the motorist
no longer means punishing a few rich
men, but is likely to fall upon the
"common people."

With this fact as groundwork, and
with experience as a practical teach-
er, the earlier laws affecting automo-
biling are being amended or replaced
by wiser regulations.

A case in point is the repeal by the
Kansas Legislature of the 20-mile
speed limit and the adoption of the
much more sensible and effective
standard of "reasonableness." The
new law provides that no person shall
operate a motor vehicle outside of
cities and villages at a greater speed
than is reasonable in the specific cir-
cumstances, nor at a rate to endanger
life and limb and it declares that a
rate higher than 25 miles shall be pre-
sumptive (not conclusive) evidence
of want of proper care in case any
one's person or property is injured.

Such a law does not permit the
blackmail of motorists for mere
speed when a speed is harmless and
does not lay a false emphasis on speed
as an element of danger. But it
does emphasize care.

A DIRECT VOTE SENATOR.

Hon. Augustus O. Bacon who has
represented Georgia in the United
States Senate for eighteen years by
virtue of three elections by the State
Legislature was yesterday chosen
Senator by the direct vote of the peo-
ple for the term ending March 3,
1919. The vote cast was doubtless a
very light one, for there was no op-
position and Mr. Bacon is returned to

the Senate practically by the unani-
mous consent of the people of Geor-
gia, says the Philadelphia Press.

This is the first election under the
Seventeenth Amendment to the Fed-
eral Constitution which transfers the
choice of United States Senator from
the State Legislature to the popular
vote. The unanimity of Bacon's elec-
tion is due to the fact that he pre-
viously carried the Georgia primary un-
der the old system and this decision
though nullified by the adoption of the
amendment was ratified by the peo-
ple. The popular vote lends itself
to competition and it is likely that
there will be a freer struggle with
more candidates under the new
method of choosing United States
Senators than under the old.

Maryland will be the next State
to have an election of United States
Senator by popular vote. It will be
held next November. The stake is an
important one, as the close party
vote in the United States Senate will
be affected by the choice of Senators
in Maryland. Both parties will put
their utmost endeavor into the cam-
paign and the result will react in no
inconsiderable degree the impression
that President Wilson's Democratic
policies are making on the minds of
the people.

PICKED UP IN PASSING

N. G. Steltz, traveling salesman for
the American Type Founders Co., on
his regular visit to Charleroi, this
week exhibited a bill yellow with age
that announced the "pioneer fast line"
of 1837 from Philadelphia to Pitts-
burg. The fast line called for com-
pletion of the trip in the marvelously
short time of three and one-half
days. In the same advertising bill a
trip by boat from Pittsburgh to Lon-
don is announced but the actual
running time is not given. It might
be interesting to note that with the
present accommodations the trip
from Philadelphia to Pittsburgh takes
about seven hours to complete.

The handbill contains the following
wordings: "Pioneer Fast Line. By
railroad cars and canal packets.
From Philadelphia to Pittsburgh.
Through in 3 1-2 days; and by steam
boats, carrying the United States
mail from Pittsburgh to Louisville.

"Starts every morning from the
corner of Broad & Race St. In large
and splendid eight wheel cars, via the
Lancaster and Harrisburg Rail Road,
arriving at the latter place at 4
o'clock in the afternoon, where pas-
sengers will take the Packets, which
have all been fitted up in a very su-
perior manner, having been built ex-
pressly for the accommodation of Pas-
sengers, after the most approved
models for Boats used on the Erie
Canal, and are not surpassed by the
Boats used upon any other Line.

"The Boats are commanded by all
old and Experienced Captains, sev-
eral of whom have been connected with
the Line for the two last seasons. For
speed and comfort, this Line is not
excelled by any other in the United
States.

"Passengers for Cincinnati, Louis-
ville, Natchez, Nashville, St. Louis,
&c. Will always be certain of being
taken on without delay, as this Line
connects with the Boats at Pittsburgh,
carrying the Mail.

"Office, N. E. Corner of Fourth and
Chestnut St.

"For seats apply as above; and at
No. 200 Market Street; at the White
Swan Hotel, Race Street; at the N. E.
Corner of Third and Willow Street;
No. 31 South Third Street; and at
the West-Chester House, Broad Street."

"A. B. Cummings, Agent."

"Philadelphia, April, 1837."

"Young, Printer, Black Horse Alley
Philadelphia."

The bill is in size 15 by 11 1-2
inches. Two wood engravings are
shown, the first near the top of an en-
gine that to the 1913 eye looks like
the original steam engine that Watt
invented. The long coach pictured
in general shape resembles the pas-
senger coach of today, but in gen-
eral outline shows a style more re-
sembling a carriage. Windows are
not so frequent on the side. The
second picture is that of a boat. Mo-
tive power is furnished by three horses
walking in single file upon a canal
path by the side of the narrow
stream meant to represent the Ohio
river. The boat somewhat resembles
the houseboat of today that is to be
seen tied at coal mine harbors. The
bill is most unique.

FACTS ABOUT THE GIFT COW

Writer, Evidently Having Had Some
Experience, Writes Bitter Things
Concerning Animal in Question.

Already putting up the bars
against presents, which, and often in
the queerest forms, are sure to be
offered or even sent without per-
mission to a president by so many
of the generous, easy, careless—
should we add "irresponsible?"—
American. The Governor Wilson is
said to have warned or shooed away
the cow which a middle western
farmer sought to give him. Accord-
ing to the dispatches the governor
will make it a rule to refuse "valu-
able" gifts.

The rule is none of our business,
but is a cow, say, though she be a
milky Orsini or Colonna, "valuable"
in the hands of an innocent third
party, not bucolic in his habits? How
many blameless urban souls have
pined for the greenwood tree and a
horned Amaryllis in the shade there-
of. How many of them have begged,
bought, mortgaged, stolen and got
their little patch of land and stocked
it with a cow, "fancy" or otherwise,
in price always "fancy," too often the
gift of a pretended friend or ma-
licious relation? Was this lactiferous
beast of their dreams "valuable" to
them? Was it not rather a respon-
sibility, a cause of continual trouble
and expense?

The cow moos all day, if kept at
home, and a decent regard for the
neighbors forces the amateur to drive
the danged thing afield. He can't
feed it or milk it, he has to hire a
man, usually incompetent, to chap-
eron it to and from the pasture, at-
tend to its board, milk it, telephone
for the "vet" now and then. The
cow caretaker doesn't know his busi-
ness. The gift cow knows he doesn't
know his business. And milk is not
one of the gifts of the cow. The cow
is always getting you into hot water.
You can't sell it or give it away to an
enemy. You don't dare to shoot it.
You have to pass that cow's life in
lying to the giver.

Governor Wilson does well to buy
his milk. He would have to buy it
just the same if he had a gift cow.—
New York Sun.

Cape Smoke.

The chiefs of Basutoland and Bech-
uanaland demand prohibition, and
take care that it is secured to their
people. But nevertheless the brandy
party of the Cape Colony leaves no
stone unturned to promote the sale
of "cape smoke" and wine sufficient-
ly strengthened to suit the native
taste. Nothing can be more fallaci-
ous or hypocritical than to speak of
the native being supplied with "light
wines." The native wants something
with a "bite" in it, and is not satis-
fied with any intoxicant which does
not proceed down his throat "like a
torchlight procession."

Within the last three months there
were at one time no fewer than 1,500
persons in the Johannesburg jails
charged with illicit selling of intoxi-
cants. The crime is that of giving
veritable poison to natives—all at a
price frequently of ten shillings a
bottle. The punishment for this lu-
crative and murderous traffic is, Mr.
Willmot contends, "absolutely propo-
sitionous," and after some months of
easy prison life the brazen trafficker
returns to his easy method of mak-
ing money.

Changed by Marriage.

that I have ever made she has scorn-
fully rejected."

oline marry? Beatrix—The kind who

ELECTRICITY TO AGE CHEESE

Hollander Announces Complete Suc-
cess of Most Important Experi-
ments He Had Undertaken.

Another use has been found for elec-
tricity, that of aging cheese. An in-
dustrial electrician of Rotterdam, Hol-
land, through a long series of experi-
ments found that he could take an
absolutely fresh cheese and in one
day actually "age" it two years. In
other words, by means of electricity
he would make this fresh cheese have
all the consistency, taste and appear-
ance of a fine cheese that had been
stored away and carefully aged for
two years.

He takes a fresh cheese and sub-
jects it to an alternating current. At
the end of twenty-four hours of con-
stant alternating electrical currents
through this cheese it possesses all
the properties of a fine two-year-old
cheese.

This has naturally aroused great in-
terest in Holland, where cheese-mak-
ing is one of the big industries. It is
said the electrician claims he can do
many other things with cheese by
means of electricity, including an ap-
paratus that will enable the manu-
facturer to so graduate and direct
electrical action of this nature as to
give cheese any taste desired and any
consistency that may be needed to
supply the wants of a fastidious mar-
ket.

Incendiary Bullet.

Tests have been made in Germany
with a special projectile which is in-
tended to repel dirigibles and which is
designed not only to pierce a gas en-
velope but also to set fire to the gas.
This projectile, fired from the old
German rifle known as "model 71,"
which has a caliber of 11 millimeters,
is provided with little wings that
open in flight under the influence of
a spring, compressed while the pro-
jectile is still in the rifle barrel, but
expanded as soon as the muzzle is
passed. An ordinary bullet leaves such
a small hole in an envelope that the
gas escapes through it but slowly. The
wings on the improved bullet tear a
hole of appreciable size in the fabric.
What is more, they retard the bullet
sufficiently to cause a friction device
to ignite fulminate contained in the
bullet. It is said that experiments
conducted at Neumannswald gave en-
couraging results.—Scientific Ameri-

Lifeboats on Guide Rails.

Commander Eaton, R. N., has invent-
ed an interesting device for the lower-
ing of boats at sea with the minimum
of danger to passengers, which is now
under the consideration of the board
of trade, according to a London dis-
patch. Commander Eaton has de-
voted considerable attention to the
subject and has a practical knowledge
of boat work at sea.

His system is the provision of lifts
down the side of the ship, so designed
that the boat rests on a platform which
slides down guide rails fixed to the
ship's sides. The boats themselves,
swing on gimbals, so that no matter at
what angle the ship may swing the
boats remain upright and there is no
danger of their being overturned while
descending or of being dashed against
the sides of the vessel.

TURNED THE JOKE ON BISHOP

Great Episcopal Churchman Found
That Rabbi Could Give as Good
a Shot as He Got

Mrs. Champ Clark, who is as well
known for her brilliancy in conversa-
tion as her husband, the speaker of
the house of representatives, is for
this time in politics, tells this story:

The late Bishop Potter of New York
had a most unclerical relish for prac-
tical jokes and pointed anecdotes. His
cosmopolitan spirit loved men and
things, and nothing pleased him bet-
ter than to gather a group of con-
genial spirits about him and swap
jokes.

One day he met a friend, a distin-
guished Jewish rabbi, and said to him
in great seriousness:

"Rabbi, I am greatly worried about
a dream I had the other night. I
dreamed I died and went to the Jew-
ish heaven. And who do you suppose
were the only occupants?"

"I don't know, I'm sure," said the
rabbi.

"Pawnbrokers and second-hand
clothing men," laughed the bishop.

The rabbi said nothing.

Shortly after, however, he met the
bishop. "Why bishop," he said, "I
had a dream myself the other night."

"Yes," said the bishop uneasily;
"and what did you dream?"

"I dreamed I went to the Christian
heaven."

"Well," pursued Potter, bracing
himself, "who did you find there?"

"Nobody," answered the rabbi.—

WHY THE PASTOR WAS LATE

On the Way to a Wedding He Met a
Deer, and Stopped to Kill
the Animal.

The Rev. H. H. Thomas, pastor of
the Baptist church at Greenwood and
Womley, started to Greenwood to offi-
ciate at a wedding, and, says the
Arkansas Gazette, after a six mile
drive from Mount Ida he saw a large
deer chased by a pack of hounds.

The preacher forgot about the wed-
ding and followed the deer. He ap-
proached the large buck, which came
to him, and they "locked horns." The
deer lost his footing, and so did the
minister, and they went tumbling
down the hillside together.

"I came up on top," said the preach-
er, "and in some way I got my knife
open and cut the deer's throat, and
while holding to the long, shaggy
horns the deer gave a big leap with
me and jumped into the water, carry-
ing me with him. There he died in a
few minutes and I pulled him out,
got a wagon and hauled the deer into
Mount Ida."

The preacher, after being three
hours late, telephoned to Greenwood,
and, buying a new suit of clothes,
served at the wedding of W. R. Burr
and Miss Lillian Anderson.

Compliments of the Season.
Whether or not this story, sent to
the London Telegraph by its Paris
correspondent, is fact or invention, it
has so delightful a flavor of the Orient
that every one will feel that it ought
to be true.

When the sultan of Turkey gave or-
ders for the mobilization of his troops
he sent the king of Bulgaria a sack of
millet with the following letter:

"Ferdinand Effendi. Mobilize if you
like, but be assured that there are as
many soldiers in Turkey as there are
grains of millet in this sack. Now, if
you wish, declare war."

Ferdinand's reply was in kind. He
sent a much smaller sack, filled with
tiny grains of the hottest red pepper
of the country. With it went the fol-
lowing letter:

"Dear Sultan. The Bulgarians are
not numerous, it is true, but be as-
sured that to stick your nose into
their affairs is like sticking it into our
national condiment. Try it and see.
They will sting you so sharply that
the whole of Asia will not be able to
save you."—Youth's Companion.

Youth in Music.

In view of its strange influence over
man's heart and life, it is no wonder
that the greatest minds of all ages
have taxed all language to express
their conception of the full value of
music. Our education is too gross and
utilitarian. We have made too much
of the intellect and too little of the
feelings. No parent has done his full
duty to his child until during the pre-
cious memory years before sixteen he
has given the child's mind as a pre-
cious memory forever the great patri-
otic hymns of home and native land,
the folk songs of his race, the
great classic hymns that sing of man's
need and the pathos of God's love, the
sublimity of immortality and mystery
that lies beyond. For music has full
power of pathos and sublimity and can
lift man into the ether of the upper
world, can wash the dust from the
soul's wings and make it triumphant.
—N. D. Hillis.

Lack of Space.

Charles H. Taylor, Jr., one of the
owners of the Boston Globe, was very
busy in his office one morning when
there appeared before him Charles S.
Howard, the dramatic editor of the
paper, with a big kick about his criti-
cisms having been cut down so that
they filled a very little space.

"Can't help it," said Taylor crisply.
"The paper is crowded with advertise-
ments, and they mean money. We must
keep that dramatic stuff cut down."

"Well, by thunder!" exploded How-
ard. "I guess next year you'll be on
dering me to write wordless criti-
cisms."

"Oh, no," said Taylor lightly; "not
wordless—just spaceless."

SAYS ALL WOMEN ARE LIARS

German Diplomat, Who Got the "Mit-
ten," Declares Fair Sex Defi-
cient Morally.

"All women are liars and are def-
icient in their sense of moral duty."
This and more is the opinion of
Baron Herrmann von Kuhlmann of
Bavaria, unmarried and attached to
German embassy at Pekin, who ar-
rived on the Chiyu Maru recently.

According to fellow passengers, the
baron formed his views on the voyage
when his attentions to Miss Katherine
Enright of Chicago did not meet with
hearty response.

"A woman cannot recognize the
same moral responsibility as a man,"
said the baron. "No marriage can re-
main a happy one for more than a
year. By that time a man will lose
faith in his wife."

Then, turning to Miss Enright, the
baron said:

"We have had a pleasant trip. But
to have you for a wife I could
never! You are too energetic."
Returning to the interview, the
baron continued:

"Woman is illogical and untrust-
worthy. She changes her mind too
frequently. Woman has no feeling re-
quiring her to tell the truth. In Ger-
many a man and wife are comrades,
but in America—never. Here the
women are proud and selfish and the
men suffer for it."

Advice About Reading.

Be sure, then, to read no mean
books; shun the spawn of the press
in the gossip of the hour. Do not read
what you shall learn, without asking,
in the street and the train. Dr. John-
son said he "always went into stately
shops," and good travelers stop at the
best hotels; for though they cost more
they do not cost much more, and
there is the good company and the
best information. In like manner the
scholar knows that the famous books
contain, first and last, the best
thoughts and facts. . . . The three
practical rules, then, which I have to
offer are (1) Never read any book
that is not a year old. (2) Never
read any but famed books. (3) Never
read any but what you like.—Emerson

RESTORED INN OF AUERBACH

Tavern Where Goethe Placed One of
Scenes in "Faust" Has
Been Reconstructed.

The latest concrete evidence of lit-
erary devotion in Germany is the
thorough reconstruction of the "Tav-
ern of Auerbach," where Goethe placed
one of the most vivid scenes of
"Faust." It is melancholy to reflect
that nothing more remains of the old
building, since after a complete de-
molition the architects have construct-
ed a wholly modern building on the
site, but care has been taken to pre-
serve intact the cellar, which has
been for fully a century an object of
pilgrimage for Germans, who are at
once proud of their literature and fond
of recherche drinking.

Painters of an "advanced" school
have been commissioned to adorn the
walls of the various dining rooms with
scenes taken from Goethe's great
drama, while to complete the new at-
tractions it is announced that the
staircase leading down to the cellar
will be furnished with two bronze
statues, the subject of which is un-
known. The evolution of the "Tavern
of Auerbach" promises to be the same
as that of other like sacred places. It
will probably bring in an excellent in-
come to the restaurateur.

ENGLISH WOMEN RUN FARMS

Through Co-Operation Special Provi-
sion Is Made for Them in
Some Sections.

Seventy-five enthusiastic women
farmers met recently at the Criterion
restaurant, the occasion being the fifth
annual dinner of the Women's Inter-
national union. Mrs. Wilton Althausen
presided.

Miss Emerson maintained that wom-
en have not the same facilities, cap-
ital, and so forth, as men.

"The remedy," she said, "lies in co-
operation. A company has obtained a
farm at Heathfield, in Sussex, and
has divided it into small holdings for
women farmers. Bungalows are pro-
vided for the tenants, whose agree-
ments secure fixity of tenure and who
have perfect liberty in developing their
land as they like. At the same time
they have the benefit of expert
advice. The company markets all the
produce, and is able to obtain better
terms than could the individual ten-
ants."—London Mail.

Ozone as a Preservative.

An important improvement in the
technique of cold storage has recently
been introduced in Germany, viz., the
use of ozone as a supplement to the
ordinary process of refrigeration. In
the cold storage rooms attached to
slaughter houses the temperature of
the air is liable to be raised to a seri-
ous extent when the doors are left
open for any reason; for instance,
when meat is being put in or taken
out. The micro-organisms of putre-
faction immediately become active un-
der such circumstances, and the
keeping quality of the meat is dimi-
nished. Now it is well known that
ozone is a powerful germicide. If the
air of the cold-storage rooms is ozon-
ized, its temperature may be raised
without injury to the contents. This
has been proved by numerous experi-
ments, and ozonizing apparatus has
now been installed in the abattoirs
at Cologne, Potsdam, Brandenburg,
Berlin, Frankfurt-on-the-Main, Dus-
seldorf, Freiburg (Silesia), Aix-la-
Chapelle and Erfurt. In a cold stor-
age depot at Hamburg, and in vari-
ous dairies, poultry and game stores
and fish establishments.

To Put Out Oil Fires.

Two Danish inventors have found
a way to put out oil fires by applying
carbonic acid that is foaming vio-
lently. The foam is produced by a
mixture of two liquids, and it is said
that when it is thrown on burning sub-
stances, such as oils, benzine and tar,
it spreads rapidly over the surface and
puts out the flames by cutting off the
air. Many tanks that contain oil or
other highly inflammable liquids are
now permanently fitted with perforat-
ed pipes, through which the foam-
ing mixture can be applied directly
to the surface of the burning materi-
al. Hitherto fires in oil tanks have
been allowed to burn themselves out
or the contents have been drawn out
from below and wasted. According
to Chambers Journal many private
and government institutions have
adopted the new system.

It Will Save Time.

They took an ocean voyage for their
honeymoon. The second day out
"dearie" was experiencing the unrelia-
bility of an ocean that was guaranteed
to be without variability or shadow
of turning and wondering if "hubbie"
could by any human effort obtain a
position abroad when "hubbie" en-
tered the stateroom.
"It is lunch time, dearie; shall I
have yours brought here or will you
try to eat it on deck?"
"No, love; have it thrown overboard.
It will save time and trouble."

Here is Charleroi evidence to prove their worth.

Mrs. William McBride, 508 Lincoln avenue, Charleroi, Pa., says: "Our first experience with Doan's Kidney Pills took place while we were living in Beaver Falls. One of our family was, at that time, suffering from dull pains in the small of the back and other symptoms of kidney trouble. Doan's Kidney Pills were of great benefit and there were no return attacks of the trouble for a long time. About a month ago Doan's Kidney Pills were procured at Piper Bros. SAW THINGS IN A NEW LIGHT

Factory Proprietor Brought to Realize Value of Sanitary Surroundings for His Workpeople.

Scott Nearing tells in his book, Social Religion, about a factory inspector who insisted that the owner of the factory whitewash the inside of the building.

"Whitewash this factory," stormed the owner. "Why, I can't afford it; it will cost me \$1,500!"

"You will obey my order, or I'll swear out a warrant," said the inspector.

"The building was whitewashed. On his next visit, six months later, the owner greeted the inspector cordially.

"You remember the row we had about the whitewash?"

"Yes, indeed."

"Well, sir, that \$1,500 was the best money I ever laid out. The building hadn't been touched for ten years, and the whitewash makes it look like new. It is wonderfully cheerful and bright—and the girls have done so much better work that I believe I have already got my money back."

Mr. Nearing's comment is that every improvement which makes a more livable place pays. It is to be questioned how many employers and owners of buildings would accept this statement, if a large proportion of them would, the first big advance would be made toward real social religion.—Buffalo Express.

Will Destroy Moths.

It is said that the following will destroy moths, eggs and larvae in a closet: Place a brick on the floor of the closet and on this a tin or iron pan. Heat a brick until it becomes very hot and then put it in the pan. Pour hot, strong vinegar on this brick, then close the door and keep it closed for 24 hours. The steam from the vinegar will kill any live thing that may be in the closet.

Insurance for Mountain Climbers.

Owing to the large number of accidents occurring every year to mountain climbers and tourists in the Alps, several Swiss insurance companies have established an accident policy for the benefit of persons undertaking these mountain excursions. For a premium of 12 cents a season certain Alpine clubs offer insurance to their members of 12 cents a season certain with medical care, etc., included. An insurance company of Vienna offers "Alpine insurance" at a premium of \$1.42 a year for every \$203 of benefit in case of accident which causes invalidity or death. The amount of the premium is less in case groups of five or ten persons are insured together. There is also an insurance policy issued for the winter season against ski and bobble accidents in the Alps.

BIG TRACT OF COAL LAND CHANGES HANDS

Over 900 Acres Back of Monongahela included in Purchase

DEVELOPMENT TO BEGIN

Mines to be Opened at Once it is Stated--Is Last Block of Undeveloped Land

A coal purchase of unusual interest in Pittsburgh has been consummated by which a little more than 900 acres of Pittsburgh vein coal passed into new hands, with the immediate prospect of development on a large scale. The amount involved is said to be \$300 an acre, or a total of \$720,000. With improvements the deal will reach \$1,000,000.

The coal consists of two blocks. One piece was held by Walker & Taylor as an investment, back of Monongahela City along the Pigeon creek branch of the Pennsylvania railroad which runs to Ellsworth and contains 650 acres. The other is a lot of 258 acres adjoining it which was owned by the Ellsworth Collieries company and which was obtained by a trade for acreage more advantageous to the Ellsworth company.

George C. Theiss, former president of the Monongahela River Consolidated Coal & Coke company and Rufus Crawford, identified with many coal and coke operations in this district are the purchasers, but are said to have other strong associates. They intend to begin operating it soon. A company will be formed. It is understood Pittsburgh capital is back of the enterprise.

The property is between the holdings of the Steel Corporation, being that portion formerly owned by the Mingo Coal company, while the extensive acreage of the Pittsburgh-Westmoreland Coal company is on the other. The openings for the mines will be almost opposite the Hazel Kirk mine of the Pittsburgh-Westmoreland company, with shipping facilities on the Pennsylvania railroad. The coal is inside the thin vein district, but it is regarded as equal to the best coking coal in the region and it is understood that a portion of the output will be coked.

Interesting details of the transaction show that the property is the last block of undeveloped coal land in that region, which has been under active development. It was supposed that the Steel Corporation interests had an option on the property and that it was out of the market. Adjoining the operations are most important mines in the Pittsburgh field. The Ellsworth Collieries, which are the coking operations of the Lackawanna Steel company, and the Pittsburgh-Westmoreland coal operators are neighbors and the big acreage of the Steel Corporation is being held as reserve for coking, though surveys for improvements on that tract have been made.

The acreage is in Washington county, center of interest generally because of the developments of the Pittsburgh Coal company in extending railroad facilities into its holdings and the development of many coke plants on the upper end of the field.

TO WORK TOGETHER ON CASES

District Attorneys of Westmoreland and Washington Confer

TALK OF RIVER SECTION

District Attorney R. G. Miller was in Pittsburgh this week where he was in conference with W. T. Dom, district attorney of Westmoreland county. The two prosecuting attorneys talked over the handling of cases that develop along the river section where Washington and Westmoreland counties join and the desirability of co-operation in dealing with certain crimes that affect the two counties.

The matter of the shipment of liquors from Westmoreland county into this county and from this county into Westmoreland county was also discussed. District Attorney Dom had complained of such shipments from this county and District Attorney Miller had several complaints of alleged violations on the part of Westmoreland liquor dealers.

The matter of bawdy houses was also gone into. Offenders in Westmoreland county, across the river from this county, when compelled to get out of Westmoreland, simply slip across the river, into this county. Other matters of interest to the office of the district attorney were discussed by the commonwealth's representatives.

Meantime a camping trip to Conneaut Lake is being arranged by the brigade, which next Saturday will hold a supper at the church for the purpose of raising funds both for the camping trip and for the brigade general fund.

The new uniforms will be army blue with white webbing belts. Special uniforms are to be secured for the captain and three lieutenants.

Charles Wiegman is the captain of the brigade; Austin Stahlman is the first lieutenant; John Clutter second lieutenant and Frank Michener, third lieutenant. All the members of the brigade are members of the Sunday school.

WORKING ON MONONGAHELA RIGHT OF WAY

Are Progressing Well on Street Railways Line Leading From Down River Points

Ninety per cent of the right of way between Monongahela and Van Vorhis has been secured it is stated by the Monongahela Ellsworth and Washington street car company, and work of grading is progressing near the farm of Clinton Van Voorhis. It is stated by officials of the company that with good fortune cars will be in operation between Monongahela and Hazelkirk by the first of October.

RAILROADS READY FOR BIG STRIKE

Representatives of Employees Tell Them to Prepare to Quit Work

A. B. Garretson and W. G. Lee, representing the eighty-two thousand disgruntled conductors and trainmen on the eastern railroads, notified the chairmen of all the unions involved to hold themselves in readiness for an immediate strike order. The communication characterized the arbitration scheme proposed by the railroad managers as nothing short of a "plan to reduce the pay of every man in the service instead of giving the twenty per cent increase which is demanded."

While the notice which the leaders called an ultimatum was being drawn Seth Low, president of the national Civic Federation, was addressing the conference committee of the railroads. It is shown that Mr. Low's statement amounted to a charge that the railroad officials were guilty of a breach of faith with their employees by not agreeing to arbitrate the wage question before other grievances are taken up.

GARBAGE WAGON IS IN WRONG

Makes Its Presence Too Apparent and People Complain

CONTAINS NO COVER

Complaints similar to those heard every summer from suffering citizens are being aired concerning the awful stench that emanates from the uncovered garbage wagon that frequently is driven through the streets and alleys. Almost any Saturday morning the path of the garbage wagon could be traced with remarkable accuracy by a blind man, because of the odoriferous smells that follow in its wake. It is stated that an effort was made at one time to have the garbage wagon supplied with a cover to keep in as much of the stench as possible. Apparently efforts were in vain for the only cover that is to be seen now is the broad blue sky, and the wagon with its contents smells to heaven.

New Style of Blank Necessary by New Primary Law

NONE RECEIVED

Commissioners Expect Supply by Tuesday--Misunderstanding in Signature

Petitions like those formerly by aspirants for municipal or county offices cannot be used under the primary law. This information imparted this morning over the phone by Harry R. Campbell, to the county commissioners, in answer to a query from Charleroi. B will arrive probably Tuesday the state department and will be able for prospective candidates. Former petitions setting forth intentions of the candidate for were put entirely out of use Gov. J. K. Tener signed the new primary bill a week or so ago. No prospective candidates who have fully inquired as to the matter of petitions are chafing under necessity. The county commissioners have not yet received any of the kind of blanks.

If any candidate for office started out to secure signatures an old blank he will have to start all over again, after he receives a new blank.

There appears to be some misunderstanding of the new primary law regarding the signing of petitions according to the interpretation that been given one voter is permitted to sign one petition for one office instance if a Burgess candidate voter to sign his petition, the may do so, but that ends his signing of petitions for the office of Burgess. However his signing of that date's petition will not have any to do with the matter of signing other petition for another office. Five places in council are to be filled he can sign a petition of a candidate for each place.

The way the primary law seems essential that each candidate place the date of his signature after his name. Candidates municipal offices must have 100 signatures to their petitions, excepting elections candidates must have 100 names to their petitions. Committee seekers must have 100 names to their petitions.

TRAVERSED PARTS OF THREE STATES IN AN AUTO TOUR

CARE, NOT SPEED, THE TEST.

In the prosperous West the auto-

mobile has come into general use

among the farmers and as a result,

says the Chicago Tribune legislation

ends to be more favorable to its rea-

sonable use. Disciplining the motorist

no longer means punishing a few rich

men, but is likely to fall upon the

common people.

With this fact as groundwork, and

with experience as a practical teach-

ing, the earlier laws affecting automo-

biles are being amended or replaced

by wiser regulations.

A case in point is the repeal by the

Illinois Legislature of the 20-mile

per hour limit, and the adoption of the

more sensible and effective

standard of "reasonableness." The

new law provides that no person shall

operate a motor vehicle outside of

cities and villages at a greater speed

than is reasonable in the specific cir-

cumstances, nor at a rate to danger

himself or others, and it declares that a

speed higher than 25 miles shall be pre-

sumptive (not conclusive) evidence

of want of proper care in case any

one's person or property is injured.

Such a law does not permit the

reckless driving of motorists for mere

speed when a speed is harmless and

does not lay a false emphasis on speed

as an element of danger. But it

does emphasize care.

A DIRECT VOTE SENATOR.

Hon. Augustus O. Bacon who has

presented Georgia in the United

States Senate for eighteen years by

virtue of three elections by the State

Legislature was yesterday chosen

senator by the direct vote of the peo-

ple for the term ending March 3,

1919. The vote cast was doubtless a

light one, for there was no op-

position and Mr. Bacon is returned to

the Senate practically by the unani-

mous consent of the people of Geo-

gia, says the Philadelphia Press.

This is the first election under the Seventeenth Amendment to the Federal Constitution which transfers the choice of United States Senator from the State Legislature to the popular vote. The unanimity of Bacon's election is due to the fact that he previously carried the direct primary under the old system and this decision though nullified by the adoption of the amendment was ratified by the people. The popular vote lends itself to competition and it is likely that there will be a freer struggle with more candidates under the new method of choosing United States Senators than under the old.

Maryland will be the next State to have an election of United States Senator by popular vote. It will be held next November. The stake is an important one, as the close party vote in the United States Senate will be affected by the choice of Senators in Maryland. Both parties will put their utmost endeavor into the campaign and the result will react in no inconsiderable degree the impression that President Wilson's Democratic policies are making on the minds of the people.

PICKED UP IN PASSING

N. G. Steltz, travelling salesman for

the American Type Founders Co., on

his regular visit to Charleroi this

week exhibited a bill yellow with age

that announced the "pioneer fast line"

of 1837 from Philadelphia to Pitts-

burg. The fast line called for com-

pletion of the trip in the marvelously

short time of three and one-half

days. In the same advertising bill a

trip by boat from Pittsburgh to Louis-

ville is announced but the actual

running time is not given. It might

be interesting to note that with the

present accommodations the trip

from Philadelphia to Pittsburgh takes

about seven hours to complete.

The handbill contains the following

wording: "Pioneer Fast Line. By

railroad cars and canal packets.

From Philadelphia to Pittsburgh.

boats, carrying the United States

mail from Pittsburgh to Louisville.

The Greatest Woman.

Who was or is the greatest woman

in all history? Two hundred Kansas

teachers answered the question and

with enthusiasm and unanimity the

judges awarded the prize to the one

who made this reply: "The wife of

the farmer of moderate means who

does her own cooking, washing, iron-

ing, sewing, brings up a family of

boys and girls to be useful members

of society, and finds time for intel-

lectual improvement."

Courage Makes Success.

Many a man has dried up in a little

wayside opportunity, merely because

he lacked the courage to acknowledge

to himself that his judgment had land-

ed him in the wrong spot. Fortune

fledgins mere ability—brain is noth-

ing without bravery. The man who

can be thrashed by a snore has re-

reated before he is defeated.—Her-

bert Kaufman.

Resolutions of Respect.

"Oddfellowship!

dent youth

In that sublimest, most ennobling strife

To show for men, best Friendship,

Love and Truth."

In memory of Matthew Barass, who

died July 16, 1913.

"So let him sleep that dreamless

sleep, our sorrows clustering 'round

his head:

Be comforted, ye loved who weep, he

lives with God—he is not dead."

Once again death hath summoned

a Brother Odd Fellow, and the golden

gateway to the Eternal City has open-

ed to welcome him to his home. He

has completed his work in the min-

istering to the wants of the afflicted,

in shedding light into darkened souls

and in bringing joy into the places

of misery and as his reward has re-

ceived the plaudits "well done" from

the Supreme Master.

ciful Father has called our beloved

and respected Brother home.

Destiny of America.

A nation is not a conglomeration of

voters, to be represented by hungry

politicians empowered to partition

the spoils of office, but a people an-

imated by a common impulse and

seeking to work out a common des-

tiny. The destiny of America is mu-

tual service; labor is the corner stone

of our nationality, the labor of each

for all.—Ralph Waldo Emerson.

Insatiable Ambition.

"I hope our ambitious friend is sat-

isfied," said the philosophic observer.

"He has prospered so that he can do

as he pleases." "Yes. But that doesn't

content him. While he is doing as he

pleases he wants everybody to quit

work and applaud him for doing it so

WHY IT SUCCEEDS.

Because It's For One Thing Only and Charleroi People Appreciate This. Nothing can be good for everything. Doing one thing well brings success.

Doan's Kidney Pills are for one thing only.

For weak or disordered kidneys.

Here is Charleroi evidence to prove their worth.

Mrs. William McBride, 508 Lincoln avenue, Charleroi, Pa., says: "Our first experience with Doan's Kidney Pills took place while we were living in Beaver Falls. One of our family was, at that time, suffering from dull pains in the small of the back and other symptoms of kidney trouble. Doan's Kidney Pills were of great benefit and there were no return attacks of the trouble for a long time. About a month ago Doan's Kidney Pills were procured at Piper Bros' Drug Store and there were as beneficial as before."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

SAW THINGS IN A NEW LIGHT

Factory Proprietor Brought to Realize Value of Sanitary Surroundings for His Workpeople.

Scott Nearing tells in his book, Social Religion, about a factory inspector who insisted that the owner of the factory whitewash the inside of the building.

"Whitewash this factory," stormed the owner. "Why, I can't afford it; it will cost me \$1,500!"

"You will obey my order, or I'll swear out a warrant," said the inspector.

"The building was whitewashed. On his next visit, six months later, the owner greeted the inspector cordially.

"You remember the row we had about the whitewash?"

"Yes, indeed."

"Well, sir, that \$1,500 was the best money I ever laid out. The building hadn't been touched for ten years, and the whitewash makes it look like new. It is wonderfully cheerful and bright, and the girls have done so much better work that I believe I have already got my money back."

Mr. Nearing's comment is that every improvement which makes a more livable place pays. It is to be questioned how many employers and owners of buildings would accept this statement if a large proportion of them would, the first big advance would be made toward real social religion.—Buffalo Express.

Will Destroy Moths.

It is said that the following will destroy moths, eggs and larvae in a closet: Place a brick on the floor of the closet and on this a tin of iron vinegar. Then pour the vinegar over the brick and then put it in the pan. Pour hot, strong vinegar on this brick, then close the door and keep it closed for 24 hours. The steam from the vinegar will kill any live thing that may be in the closet.

English Women.

"No one knows like an English woman—London Express."

As Is a Peach.

The Maryland baked peach is a peach and no mistake, and it is enough to have made the mouths of the gods water, to have made Jove pawn his thunder and Neptune his trident for a second helping.—Baltimore Sun.

Strict Obedience.

Lady of House—"What caused you to become a tramp?" Ragged Rogers—"The family physician, mum. He advised me to take long walks after me meals, and I've been walking after 'em ever since."

Fact.

Opportunity knocks but once; and nine times out of ten, she knocks you so hard that you have to spend the rest of your life squaring yourself with all of your friends.—Milwaukee Sentinel.

It Didn't Work.

"A thing of beauty is a joy forever," remarked the husband as he surveyed her gown. "You can't jolly me into wearing this dress another season," responded the wife.—Washington Herald.

Quick Action.

Complainant—After the marriage service my husband told me I had blasted his life for ever. Magistrate—Many men come to the same conclusion, but not so rapidly.

All Concurred.

Belle—How silly men are when they like a perfect fool. Nell—That's just what everybody thought.—London Opinion.

Why Eve Was Restless.

No wonder Eve was restless in Eden. There wasn't a thing for her to gossip about except snake tracks under the apple tree.—Galveston News.

Insurance for Mountain Climbers.

Owing to the large number of accidents occurring every year to mountain climbers and tourists in the Alps, several Swiss insurance companies have established an accident policy for the benefit of persons undertaking these mountain excursions. For a premium of 12 cents a season certain Alpine clubs offer insurance to their members of 12 cents a season certain with medical care, etc., included. An insurance company of Vienna offers "Alpine insurance" at a premium of \$1.42 a year for every \$100 of benefit in case of accident which causes invalidity or death. The amount of the premium is less in case groups of five or ten persons are insured together. There is also an insurance policy issued for the winter season against ski and toboggan accidents in the Alps.

Took First Position.

Mr. William Milligan Sloane, "Seth Low" professor of history at Columbia university, in an interview with the London Daily Mail correspondent, said: "I understand that a certain Berlin correspondent of a New York newspaper received a cablegram from the editor which read, 'Don't send such war news; world's heart is sick now and'."

Increase of Dope Fiends.

Drug taking is greatly on the increase in London. Somebody recently introduced "hashish" into that great city, and so popular has it become that two hashish chambers are now in full swing not a hundred yards from Piccadilly.

No Doubt.

Victor—"What lovely furniture!" Little Tommy—"Yes; I think the man we bought it from is sorry now he sold it; any time he always calls now and says."
